SQE & TESTING SKILLS

- Software Quality Engineering (SQE)
- Quality Assurance (QA)
- Manual Software Testing
- Test Case Development
- Test Scenario Design
- Functional Testing
- Authentication Testing
- Form & Validation Testing
- UI/UX Testing
- Mobile Application Testing
- Video Streaming Testing
- Security Testing
- Defect Identification
- Bug Reporting
- Test Result Documentation
- Requirements & Expected Behavior Analysis
- Software Testing Life Cycle (STLC)
- Attention to Detail
- Analytical & Problem-Solving Skills

TECHNICAL SKILLS

Programming
C++, Python

Database
SQL, SQL Server, SQL Server Management Studio (SSMS), Database Fundamentals

Software Testing
Manual, Functional, Test Cases, Test Scenarios, Validation, Mobile, Security

Software Engineering
SDLC, STLC, OOP, Requirements Analysis

Tools
VS Code, Cisco Packet Tracer, Microsoft Office

Systems
Windows Administration, System Administration

Networking
Computer Networks, LAN/Wi-Fi, Network Troubleshooting

ANAS KHABEER

Software Engineering Student | SQE Intern | QA & Software Testing

PROFESSIONAL SUMMARY

Motivated Software Engineering student and Software Quality Engineering (SQE) Intern with practical training in software testing and quality assurance. Currently completing an SQE Internship at Big Brains, with hands-on exposure to test case development, functional testing, authentication testing, form and validation testing, UI/UX testing, mobile application testing, video streaming testing, and security testing. Strong foundation in C++, Python, SQL, SQL Server, Object-Oriented Programming, problem solving, and technical troubleshooting. Seeking opportunities as a Software Quality Engineer, QA Engineer, Software Tester, SQA Engineer, Test Engineer, or Junior QA Engineer.

INTERNSHIP EXPERIENCE

Software Quality Engineering (SQE) Intern
August 2026 – Present

Big Brains

- Completed practical training in Software Quality Engineering and software testing methodologies.
- Developed and worked with software test cases, including test case structure, expected results, and test execution.
- Performed functional testing to verify that software features operate according to expected requirements.
- Practiced authentication testing and evaluated login-related functionality.
- Performed form and validation testing to identify incorrect input handling and validation issues.
- Applied UI/UX testing to evaluate usability, interface behavior, and user-facing functionality.
- Gained practical exposure to mobile application testing and mobile-specific testing considerations.
- Tested video streaming functionality with attention to application behavior and user experience.
- Studied and applied fundamental security testing concepts.
- Tested the Big Brains Learning Platform and participated in an open testing challenge.
- Documented testing observations and developed structured defect identification and reporting skills.

C++ Programming Fundamentals Intern
August 2026 – Present

Big Brains

- Developing a strong foundation in C++ programming fundamentals.
- Practicing variables, data types, operators, conditional statements, loops, functions, arrays, and core programming concepts.
- Applying Object-Oriented Programming (OOP) principles and strengthening logical problem-solving skills.
- Practicing debugging and identifying programming errors.
- Building programming knowledge that supports software engineering and software testing activities.

PROFESSIONAL EXPERIENCE

IT Manager
March 2022 – Present

The National Grammar High School — Lahore

- Manage and maintain organizational IT infrastructure, computer systems, software, and technical support operations.
- Install, configure, maintain, and troubleshoot Windows operating systems and software applications.

IT

Hardware & Software Troubleshooting, Website Management, Technical Documentation

LANGUAGES

English — Fluent

Urdu — Native

CERTIFICATIONS & ACHIEVEMENTS

- Career Development Workshop – Certificate of Completion (Mar 2026)
- Team Lead – University Event (Dec 2025)
- Software Engineering Workshop – Certificate of Participation (Nov 2025)
- Technical Support Volunteer (Oct 2024)

- Diagnose and resolve hardware, software, and network-related problems.
- Administer LAN/Wi-Fi networks, user accounts, backups, and system security.
- Maintain website, email systems, CCTV, and biometric attendance systems.
- Provide technical support and training to staff and coordinate technology maintenance and upgrades.
- Apply systematic troubleshooting and analytical problem-solving to identify technical issues and implement solutions.
- Prepare technical documentation and communicate technical problems and solutions clearly.

EDUCATION

Bachelor of Science in Software Engineering *October 2024 – Present*

University of Management and Technology — Lahore

Relevant areas: Software Engineering, Programming, Object-Oriented Programming, Database Fundamentals, SQL, Computer Networks, Software Development, Software Testing, Software Quality Concepts

Intermediate — Pre-Medical *September 2022 – September 2024*

Punjab Group of Colleges — Lahore

Matriculation — Science *March 2020 – March 2022*

The Educators — Lahore

LEADERSHIP & MANAGEMENT

- Organized and led academic and extracurricular events.
- Coordinated teams and delegated responsibilities to ensure timely task completion.
- Managed resources and planned activities to meet deadlines.
- Maintained effective communication and applied problem-solving and conflict-resolution skills.
- Adapted to changing requirements and challenges.
